

# Top Tips On How To Prevent Your Drain From Blocking

## Kitchen Sinks

- ☐ Throw food waste in the bin
- ☐ Fat and grease should never be disposed of in the sink
- ☐ Run hot water through your sink to loosen any dirt or grease and then wipe with a sponge

## For All Sinks In Your Home

- ☐ Clean your sink / bath regularly to avoid build up of dirt
- ☐ Check for cracks and splits in the pipework
- ☐ Buy a sink strainer to catch excess debris

## Bathroom Sinks

- ☐ Remove long hair after showering / bathing
- ☐ Only flush waste and toilet paper - do *not* flush anything else such as feminine products
- ☐ Keep jewellery secure so it can't slip into the drain
- ☐ Take hair grips out of your hair to avoid them clogging the drain

## If You Notice The Following

- ☐ Foul smelling water or unusual, strange odours
- ☐ Leaking roofs, walls or ceilings
- ☐ Damage to wiring or electrics
